## F61- Performance Carburettor Cleaner

Solvent Carb Cleaner

### FEATURES

Carburettor Cleaner is a blend of solvents which has been specifically developed to quickly and effectively remove gum and varnish deposits from automotive carburettors helping to improve engine efficiency and fuel economy, eliminating poor idling and improving throttle response.

### DESCRIPTION

- \* Strong solvents dissolve and flush dirt away fast
- \* Powerful jet supports an aggressive washing action
- \* Cleans carburettor and air intake components without dismantling
- \* Dissolves thick grease deposits, lacquer and built-up carbon

### METHOD OF USE

Carburettor - to clean the visible parts, remove the air filter. Start the engine and let idle until warm. Open the choke with the engine, warm, spray into the air inlet manifold onto the dirty parts. Spray in periodic bursts.  
Use as required until parts are clean.

### PROPERTIES

|             |   |                          |
|-------------|---|--------------------------|
| Appearance  | : | Clear, colourless liquid |
| Odour       | : | Characteristic Solvent   |
| R.D. @ 20°C | : | 0,92                     |

### PACKAGING

F61-Performance Carb Cleaner is packed into 300ml aerosol cans.

### PRECAUTIONS

Avoid contact with skin and eyes or on clothing. In the event of accidental contact with the skin or eyes, rinse with copious amounts of water for at least 15 minutes and seek medical attention. If ingested, give plenty of water to drink and seek immediate medical attention. Do not induce vomiting.

**For further information, consult the material safety data sheet.**
